

IR - Sadtler Steroids 1 - Wiley

Spectra - 865

Description

This database of 865 infrared spectra of steroids can be used for identification, classification, and verification of these materials.

Additional Information

Each compound in this database is identified by its chemical name and the method of analysis as well as structural formula, molecular formula, and molecular weight. Synonyms, melting points, boiling points, literature references, and comments may be displayed when available.

This collection has been subject to the Sadtler Data Review Protocol™ to provide you with the highest standard in spectral data today. These rigorous qualifying procedures start at data acquisition and continue throughout the database development process.
